# Cleveland is Lost

She got out about a week ago. I fear she will be eaten by cat or bird but maybe not, she is great at hiding. Last seen 32<sup>nd</sup> and Division. According to a wiki article she has a range of about 4 miles when seeking a mate. Who knew!

She is molting so blind and very skittish. If you find her please cover with a large bowl make sure you leave a space at the bottom for air and contact me ASAP at [billginter4@gmail.com](mailto:billginter4@gmail.com)

Thank you!
