Phil won this week's **Newspaper Puzzle Prize**. In **Chase the Joker**, Naomi drew the Jack of hearts preserving the \$ 355 Jackpot. Lloyd might have won **Heads & Tails**...

Puzzle Time

What's The Mystery Word

What has 4 letters, sometimes 9 letters, but never has 5 letters...

One of my friends couldn't make it to the pub quiz this week, so we called a statistician we know to make up the numbers."

Went to a pub quiz last night. I could tell it was a rough place when the first question was, "What are you looking at?!"

Got asked a question at the pub quiz: "Can you name a race of French speaking people from an Island in the Mediterranean?" I said, "Corsican."

My team-mate said, "Go on then."

I'm so mad! I just lost the quiz by using the wrong pencil to fill in the answers. It wasn't 2B.

Pub quiz didn't go well. The quiz master asked, "Name a Bond villain," but he just wouldn't take "No" for an answer.

Answer to Last Week's Puzzle

What can you see in the middle of March and April that can't be seen at the beginning or end of either month?

The letter 'r'!
